This condition worked against us when we sent out among the farmers in the valleys after the strike was declared. Some of the men who had been disap-pointed when they applied for work be-fore would say something like this to our agents: 'How do I know that I am going to be able to hold a job there? How do I know you will not get some foreigner to take my place as soon as you can find one?" We needed these "armer boys—needed them badly. So we had to guarantee them employment for as long a period as we had work for them and they could do the work. Accordingly, we told them what I have just told you, that Utah men would be given every preference in these mines from now on, and that if we could pre-vent it the foreign element would never

Men Must Be Taught.

"The Utah Fuel company has a campaign of education ahead. We must educate our miners, it would be silly to tell you that all the men now working are capable miners, because they are not and you know they are not. But in the main they are men who will make good miners if they stick with us and if others will act with them. It will cost the company something to educate these boys in coal mining, but we figure that the benefits resulting from eliminating the foreign element will more than compensate for the cost. It is costing us a good bit to operate these mines right now. We still have a great number of company guards to pay, we have to pay overseers to supervise the work of the inexperienced miners and we are suffering financially in many ways through the lack of experienced miners but we are determined to make our policy win if we can. We are getting strong support from the people in the valleys about here, especially the prominent Mormons. These people realized that a market for their produce and for their labor was in peril and they rallied to our support. I know, personally, that many farmers now at work in our mines came here not only because they wanted work, but because they realized that if the company lost this strike their farms would become practically worthless.

"We have been blamed for filling our supports of the suffering form negative filling our supports."

CITY GOVERNMENT CHANGES.

question. Speculation is easy and purposeless.

The number of the strikers in Carbon county has diminished perceptibly during the past two weeks. It is idle to argue to the contrary with one who has been on the ground during that period. The fact is everywhere apparent. Exact figures are not obtainable, but a loss of 200 from the strength during the early days of the strike might not be excessive. The low rate of the Rio Grande road is moving people away fast, as proved by the records of the ticket agents. Over forty strikers have availed themselves of the rate and left Sunnyside alone during the week just closed. Some of them may come back. Most of them likely will not. The same is true in greater or less projection of other camps in the county.

Scheme Works Very Weil.

Scheme Works Very Well. It should not be forgotten that this rate is not confined to strikers alone, but

further damage."

Mr. Sharp made this statement to the Merald in the course of a general discussion of the Carbon county strike and its probable results. Continuing, he said: "The company was, in the disput from its properties, and conditions from the course of the company was, in the disturbance occur from time to time the cause no other class of miners could be eccured. We would get plenty of applications from the farmers in the valleys during the fall and winter, but in the spring these men would go away again and we would be up against it for help. The foreigners came and wanted work. They were, as a rule, good miners, and we had to have miners. So we filled up our mines with them—to our sorrow, as the outcome has proved, and we far through with them if we can get along without them.

Their Jobs Secure.

"We have had a hard fight to get men here during the past two months, but we are beginning to see daylight ahead now. In times past the farmers have come here looking for work in the fall. Sometimes we could give it to them, but sometimes we could give it to them, but sometimes we could not. This condition worked against us when we sent out among the farmers in the weather of the company will be able to operate the mines with full forces again. The company will be able to operate the mines with full forces again. The content of the company property.

rom now on, and that if we could never again be conspicuous in the mines of the Utah Fuel company.

"But can Utah furnish us enough men? We will do our part if the working men of Utah will turn out in numbers sufficient to operate our mines. Some of the men we have here now will no doubt stay with us. Others will likely freturn to their farms in the spring. We must operate the year round, and if we cannot get enough English-speaking men to keep the plants running we may have will do it only as a last resort. We have suffered enough through these foreigners.

Mostly Mormons.

"I do not believe there is any danger of organizing the men now in our mines against us," Mr. Sharp continued in answer to a question. "The Mormon church took a hand in this trouble and these

many farmers now at work in our mine came here not only because they wanted the containty lest this strike their farms would become practically worthless.

We have been blamed for filling our the containty lest this strike their farms would become practically worthless.

No Truth in Report.

St. Petersburg, Jan. 2,-The Associ-nted Press is officially informed that there is absolutely no truth in the re-port from Berlin that the czar yesterday received a dispatch from Vicercy Alexieff and called his ministers to a midnight conference, which still sitting early this morning.

Confident of Peace. Berlin, Jan. 2.—Emperor William told Admiral Von Hollman, at audience Thursday, according to a report accepted on the boerse today, that he was confident peace would not be broken

n the far east. WAR DRAWING NEARER. London Weeklies See No Escape

From a Conflict.

London Weeklies See No Escape

From a Conflict.

London, Jan. 2—No word has yet been received here tending to show when the Russian reply to Japan may be expected. Foreign Secretary Lansdowne has informed Paron Hayashi, the Japanese minister, that he fears that the war party in Russia is in the ascendant, and that he has faint hopes of Japan receiving a favorable reply.

Baron Hayashi says he has received no news of the intended dispatch of a Japanese was there. The minister pointed out that the dispatch of a sauadron to Masampho would not necessarily be a warlike action, though it could scarcely nelp being regarded in the line of other precautions which Japan has openly taken.

The weekly papers here share in the general feeling of alarm current in Great Britain. The Spectator says war draws ever nearer and adds:

"If we are dragged hid this war, as we may be the country will not be divided in sympathy, dislike of Russia being as strong among the masses of our population as it was in 1853."

The paper surmises that Russia may keep her ships in her harbors, as she did during the Crimean war, thereby forcing land actions or a dangerous attempt by Japan to seize Port Arthur and Vadivostock.

The Saturday Review adopts a somewhat cimilar tone saying that the Washing Rose Goist came up this morning.

Miss Rose Goist came up this morning.

Miss Rose Goist came up this morning.

Miss Rose Goist came up this morning.

Japan to seize Port Arthur and Viadivostock.

The Saturday Review adopts a somewhat similar tone, saying that the likelihood of Chinese intervention menaces the
commercial interest of all Europe and
the United States.

Information has been received in a London diplomatic quarter unfriendly to
Russia that M. Bezobragoff, who was recently raised by the czar to a secretaryship of state, is the power bear; the
scenes of the Russo-Japanese modiations. M. Bezobragoff, according to this
source of information, who is now the
prime favorite of the czar, and the leader
of the war party, is president of the
Yalu River company; is largely interested
in commercial enterprises in Corea, and in commercial enterprises in Corea, and is the bosom friend of Viceroy Alexieff. Though the news is evidently partial, it receives some credit, and adds to the alarmist feeling.

Orders to Engineers.

Glasgow. Jan. 2.—A large number of Clyde marine engineers received caole orders from the Japanese government today to proceed immediately to Japan. These engineers were engaged by the Japanese government six months ago, on the understanding that they would be called on if active service was probable. Full instructions were sent them in cipier. They will go to the far east by way of Canada.

ALICE MINE CLOSED DOWN. Property Was Being Worked Under Bond and Lease. (Special to The Herala.)

Park City, Jan. 2.—The Alice mine was closed today, but just why no one seems to know. A company of Park CRy people have been operating this mine under a lease and bond for \$50,-000 for two years, and today, about sixteen months before the lease ex-pires, Harold Barnicott, the original owner and lessor of the mine, went up to the property and ordered the miners employed to cease work and hot to come back again. The combany operating the Alice are at a loss to know why this act should be taken

on the part of Mr. Barnicott. They state, however, that they have been working in some very fine looking rock, and the closing of the property is thought to have been brought about by the desire of Mr. Barnicott to again secure control of the property. In any event the mine will remain closed until at least the legal rights of the lessees have been established.

The breaking down of the engine of the Little Bell this morning resulted in the entire force at the property being laid off for a few days until the broken parts can be replaced in the
